## HANSA expands HANSASTECLA collection

### New vessel faucet defines functional versatility in the modern bathroom

**NORCROSS, Ga. (April 2009)** – With clear, yet unusually combined shapes, designers Bruno Sacco and Reinhard Zetsche, creators of the multi-award winning **HANSAMURANO** and **HANSACANYON**, now position high-quality design at an affordable price point. Building on the momentum of the initial launch in 2007, Hansa introduces the **HANSASTECLA** vessel faucet.

“Designers Bruno Sacco and Reinhard Zetsche once again demonstrate that good design blends superior form and function,” says Chris Marshall, President and CEO of Hansa and KWC AMERICA. “With the **HANSASTECLA**, the homeowner does not have to sacrifice style for performance.”

The simple cylindrical body of the **HANSASTECLA** embodies a charming contrast to the distinctively angular water spout, while the uniquely designed **HANSAFLOW** spout transforms water into a broad, soft surge, creating a pure and natural water flow.

The innovative HANSASTE**L**A vessel faucet features a high base at 9.1 inches, making it an ideal choice for many modern washstands and sink basins. In true HANSASTE**L**A style, the vessel faucet also has a precise and easily operated joystick lever.

With offerings of new two or three-hole fittings, which can be mounted on the washstand or concealed within the wall, the new additions to the HANSASTE**L**A collection provide greater design freedom in the bath.

For more information on the HANSASTE**L**A or other Hansa products, call 678 334 2121 or visit [www.hansa.us.com](http://www.hansa.us.com).

### **About HANSA**

Based in Germany, Hansa is part of the HANSA group and is world-renowned for its innovative and groundbreaking designs in the kitchen and bath industry. For nearly 100 years, Hansa has been dedicated to global development of its family-owned and operated business.
